
Corporate Giving & Community Support Funding Guidelines

Mission

Piper Sandler funds community charitable organizations that Piper Sandler and its employees select and designate, which are located where our employees live and work. We encourage our employees to engage in community service and Piper Sandler provides financial support for employees' volunteerism and contributions to community charitable organizations.

Corporate Level Giving Areas of Focus

In addition to supporting our employees, Piper Sandler provides corporate funding to organizations that are aligned with our area of focus:

We believe education is foundational to increasing opportunities for individuals from under-resourced communities. Our belief in the transformative power of education informs our funding focus: we will fund organizations within our key markets that provide educational programs (e.g. tutoring, mentorships, internships, training, scholarships) serving academically talented, diverse students from under resourced communities creating development and employment opportunities these students may not otherwise have. These organizations should have meaningful volunteerism possibilities as well so our employees have the opportunity to contribute their time and engage directly in these programs.

Funding Guidelines

- Programs will have special emphasis on future generations and/or those at-risk.
- Programs must be innovative, collaborative and implemented through organizations that support the local population in our key markets of business and employee presence.
- Priority will be given to organizations that meet our guidelines and provide opportunities for our employees to be involved.

We Will Not Consider:

- Organizations whose programs discriminate on the basis of race, color, religion, creed, sex, sexual orientation, gender identity, marital status, familial status, age, physical or mental disability, genetic information, or veteran status or any other consideration protected by federal, state or local laws
