chartservices@psc.com

An extension of the technical research platform, Piper Sandler chart services is made possible through our 2012 acquisition of Mansfield Stock Charts. Before each week of trading, we provide investors with chart books of every AMEX, NYSE, SPX and OTC I, II and III listing. These stock charts include essential fundamental and analytical statistical data in a highly usable format, making it possible for investors to form an accurate and dependable assessment of the market.

AVAILABLE CHART BOOKS

- **AMEX Chart Book** – contains all common equity shares and funds & units (excluding ETFs) priced \$1.00 and above listed on the American Stock Exchange
- **NYSE Chart Book** – contains all common equity shares and funds & units (excluding ETFs) on the NYSE priced above \$1.99 listed on the New York Stock Exchange
- **OTC I, II and III Chart Books** – contain a list of all common equity shares and funds & units (excluding ETFs) priced above \$1.99 and listed on either the NASDAQ or the OTC BB, divided into three parts
- **Custom Chart Books** – customized chart books tailored to your sector or exchange

EACH CHART INCLUDES:

- 2.5 year chart – weekly information
- Base 100-day relative strength line
- Quarterly and cumulative earnings
- Earnings estimates
- Insider trading activity
- Institutional holdings
- Dividend actions
- Price vs. 40-week moving average
- Piper Sandler technigrade score
- Piper Sandler MACE score
- Robust historic data
